## Bogliasco Foundation hosts one-week Architecture and Food Trip on Italian Riviera

Architectural Orders Academy in collaboration with the Bogliasco Foundation, is pleased to announce a one-week course based in Genoa, with day-trips along the Riviera. The rich splendor of Genoa's streets and palaces, some of which are still owned by the families that had them built during the Renaissance and Baroque periods, has earned them a designation as UNESCO World Heritage Sites. Via lectures hosted by the Foundation at its "Chalet" Conference Pavilion, regional wine and food tastings and visits to various historic sites, many of which are usually off limits to the general public, participants will discover the interrelationship between the city's taste for architecture and its cuisine. ## In Remembrance:

With sadness, we report the passing of two major American poets and Bogliasco Fellows: **Mark Strand** (BF '01) who passed away in November 2014, and **Philip Levine** (BF '00), whom we lost in February 2015. We are honored to have hosted both Pulitzer-prize winners, who shared their abundant talent and great humanity with the Bogliasco community for a few precious weeks during their Fellowships at the Study Center. Our thoughts are with their families and friends.
